A New Paradigm in Design & Build Services

HC Structural Engineering, Inc. is a client-focused practice built on an ability to create highly collaborative interface between building owners, engineers and skilled contractors. We employ innovative technology in a BIM based workflow from inception to completion to deliver highly cost-effective and sustainable structural solutions. This workflow enables an engaged project management to maintain quality and value throughout the building process.

Services Include

- New Building Design
- General Contracting
- Tenant Improvement
- Peer Review/Value Engineering
- Seismic Retrofit
- Single & Multi-Family Housing
- Non Structural Components
- BIM Consulting

Designed to be the Right Choice

- Partnered Business Model
- 24/7 Access
- Innovative Technologies
- BIM Based Workflow
- Value Engineering at Initiation
- Virtual Work Environment
- Cloud Based Workflow
- Time-saving Single Model Modality
- Proven Track Record
- Convenient Client Phone App

"We bring a collaborative approach, innovation and state-of-the-art technology to improve our client's lives and enable better project outcomes. Our goal is to do exceptional work to enable our client's success and create long term partnerships"

Humza Chowdhry, C.E., S.E., G.C.
CEO
